PROFILE

A third year Games Design student at LSBU, skilled in Maya, Blender and website development. Have gained experience working as a 3D artist for a game to support a racing team, whilst also honing my software experiences at GlassrootWeb as a website developer. I am excited about the INSERT ROLE AT COMPANY where I can leverage my 3D modelling capabilities and further my career in game design.

EDUCATION

London South Bank University

London

BA in **Game Design and Development** (In Progress)

September 2022 - Present

PROJECTS

London South Bank University Racing

London

Work Experience

September – November 2024

- Creating 3D models for a racing game using Blender to create a model of the racetrack, allowing the programmer to start with a formula one style vehicle.
- Effective communication between other departments
- 3D modelling different parts of the track as well as helping 3d model parts of the car.

GlassrootWeb

London

Web Designer

July 2024 – Present

- Creating engaging websites for charity, focussing on strong UI that attracts investors to donate to a Children homeless fund in Lebanon.
- Utilising web flow to follow style guidelines set by clients, resulting in 7+ pages finished currently.
- Created high-quality visual content using graphic design software, enhancing the brand's online presence.

Springboard

London

Team Member

August – October 2024

- Collaborated with a team as a 3D artist, focusing on trying to make a video game that possibly attract investors attention.
- Getting valuable advice from game publishers/Developers to help improve our game.
- Getting Mentored from actual game developers and gaining key advice.

WORK EXPERIENCES

Shoryu Restaurants

London

Society Member

July 2023 – December 2023

- Served 50+ customers a day with excellent customer service, by taking orders, running food and settling payments.
- Maintained cleanliness and organization of the dining area.
- "Polishing cutlery and glass cups to make sure they're ready and clean for the next day."

INTERESTS

- Watching anime
- Reading Manga/Manhua/Manhwa
- Play Video games
- Play sports such as badminton and table tennis.
